

## Measuring angles with a protractor

How do you know which set of numbers on a protractor to use when measuring an angle?

Measure each angle.

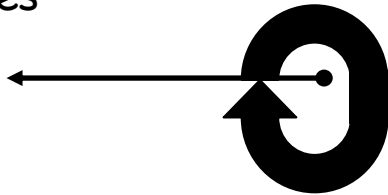

What is a half rotation ( $180^\circ$ )?

What is a full rotation ( $360^\circ$ )?

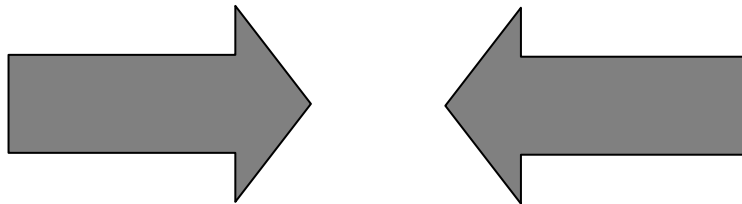

180 degrees

360 degrees

\_\_\_\_\_  $^\circ$  rotation

\_\_\_\_\_  $^\circ$  rotation
