

Perimeter, Circumference, and Area Assignment

Find the perimeter of the shapes given.

1.

Perimeter = _____ cm

2.

Perimeter = _____ cm

3.

Perimeter = _____ cm

4.

Perimeter = _____ cm

Perimeter, Circumference, and Area Assignment

Find the Area of the shapes given.

1.

Area = _____ cm^2

2.

Area = _____ cm^2

3.

Area = _____ cm^2

4.

Area = _____ cm^2

Perimeter, Circumference, and Area Assignment

Find the perimeter and area of the shapes given on the coordinate planes.

1.

Perimeter = _____ ;

Area = _____

2.

Perimeter = _____ ;

Area = _____

3.

Perimeter = _____ ;

Area = _____

Perimeter, Circumference, and Area Assignment

Find the area of the shaded region in each case.

1.

Area of the shaded region = _____

2.

Area of the shaded region = _____

3.

Area of the shaded region = _____

Perimeter, Circumference, and Area Assignment

Find the perimeter of the shapes given.

1.

Perimeter = 14 cm

2.

Perimeter = 24 cm

3.

Perimeter = 8π cm

4.

Perimeter = 68 cm

Perimeter, Circumference, and Area Assignment

Find the Area of the shapes given.

1.

Area = 30 cm²

2.

Area = 81π cm²

3.

Area = 180 cm²

4.

Area = 100 cm²

Perimeter, Circumference, and Area Assignment

Find the perimeter and area of the shapes given on the coordinate planes.

1.

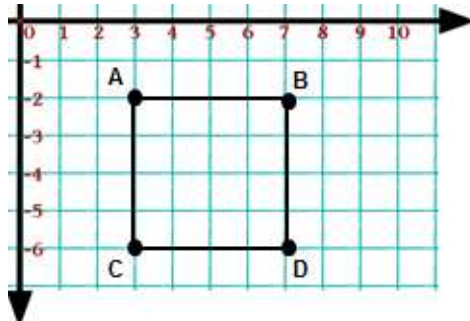

Perimeter = 16 ; Area = 12

2.

Perimeter = 12 ; Area = 6

3.

Perimeter = 16 ; Area = 16

Perimeter, Circumference, and Area Assignment

Find the area of the shaded region in each case.

1.

Area of the shaded region = 112

2.

Area of the shaded region = 39π

3.

Area of the shaded region = 90
